

## To All Visitors to the Flying Area

Welcome to this USUA Flying Club 1 fly-in! We are happy to share the fun of ultralights and light aircraft with you and we appreciate your interest. Please make yourself comfortable and enjoy your visit.

**Please be aware, however, that there is a risk of personal injury and property loss at this and any fly-in.** Although ultralights and light aircraft are normally safe when correctly maintained and operated, they are powered mechanical devices designed to maneuver in three dimensions. Things can go wrong. Wind and gusts can affect a pilot's ability to control an aircraft, parts can fail, and accidents and mistakes can occur .

**We cannot assume the risk for you. If you are unwilling, for any reason, to assume these risks for yourself and others who have come to the fly-in with you, we ask that you not stay.**
